PROGRAMMING LANGUAGES

- Java
- SQL (MySql | MongoDB)
- JavaScript
- TypeScript
- Html
- CSS
- SCSS

PROFILE

As a Professional Engineer, I've always dreamt of becoming an outstanding software developer in the industry. I love solving problems and taking on tough challenges that inspire me. I am a hardworking person, fully committed to achieving my personal and professional goals. With a strong determination and eagerness to learn, I'm ready to make a difference and stand out in the world of software development.

EXPERIENCE

SOFTWARE ENGINNERING TRAINEE   Jan 2023 - Jun 2023
Insititute of Software Engineering

Obtained experience in both the backend and front end software developments and agile software development methodologies using tending tech stack such as java, Hibernate, spring web, spring boot, react, NodeJs, Mysql, MonogodB based on microservice architecture

Point-of-sale-System
A cloud base point of sale system which consists of both front-end and back-end operations. this Pos system facilitates managing customers and items and manages the orders that help to do the daily operations effectively.

   Technologies:
     back-end: *spring-boot, Maven, Lombok, MySQL, JUnit, Model-mapper*
     front-end: *HTML-5, CSS-3,Bootstrap*JUnit*,EcmaScript,jquery*

Public-gallery-app
This app is developed to easily upload and download wallpapers. Users can upload images by drag and drop on the upload area. The download can be done by clicking on the download icons in each image. (This project was done for educational purposes to learn about "ios" in Ecmascript and redirection from spring in the back-end

   Technologies:
     back-end: *spring-web MVC, Maven, Lombok, MySQL, Model-mapper*
     front-end: *HTML-5, CSS-3,Bootstrap,EcmaScript,jquery*

Mini-Game
mini-game is developed to gain experience in the basic functionality of (selections, Traversing, manipulations, styling, EventHandling, Timers and etc.) ECMAScript. The player can control the character with the keyboard. if the character gets hit by any of the obstacles he will die on the spot.

   Technologies:
     front-end: *HTML-5, CSS-3,EcmaScript,jquery*

Simple-Task-App
The objective of the application is to manage the task list for a user. It contains completed tasks and not completed tasks. This project contains both back-end and front-end development.

   Technologies:
     back-end: *nodeJs, express,promise-MySQL*
     front-end: *React, bootstrap*

TECH STACK

Spring Web | Spring boot

Java SE | Java EE

Angular | React

Bootstrap | Animate.css

Npm | Maven | Gradle

Lombok | Hibernate Validator

JQuery

NodeJs

Parcel Js

Hibernate JPA

Tomcat | PostMan

VsCode | intellij

PERSONAL SKILLS

Team work

LeaderShip

Adaptability to changes

Creative

INTERESTS

coding

cricket

listen to music

PLANNING ENGINNER   **Sep 2021 - Sep 2022**
Access Enginnering PLC
Baladasksha Mawatha Flyover Project

SITE ENGINEER   **Dec 2020 - Aug 2021**
Malwathwaththa constrction pvt.Ltd
Surgical unit for Teaching hospital-Batticaloa and CEB project
(NTDND & EIP P2 Kirindiwela 132kV GSS)

EDUCATION

BSc.ENGINEERING (Honours)   **Nov 2015 - Oct 2020**
University of Peradeniya
Department of Civil Engineering

ACHIEVEMENT

- Accer's Coders, coding competition in Faculty of Engineering | 2016
- first place Mathematics provisional competition | 2011
- 2nd place in Drama Competition | 2011
- 1st place in science competition | 2007

EXTRACURRICULAR ACTIVITIES

Chairman   **2010 - 2011**
Vidyaraja National School, Thawalama
Chess Club

Member   **2015 - 2019**
university of Peradeniya
Civil Engineering Society

Member   **2016 - 2019**
University of Peradeniya
Arunella Programme
